

## Shuttle Information

MASCO's transportation department helps LMA employees travel to and around the LMA. Together

with our transportation service vendor Paul Revere Transportation, we provide shuttle services from

area public transit stops and off-site parking facilities to the LMA. We also provide inter-office shuttle

services between members' main campus locations and offsite offices.

All of our shuttles are equipped with GPS equipment that allows riders to get real-time bus information on their desktop computer or hand-held devices. For details on this service, see the [Shuttle Locator](#) page.
