

All-Ride Program

All-Ride Program

Please note that the All Ride Program is different than the MASCO shuttles. All MASCO [member institutions](#)' employees and students can ride MASCO shuttles (please note that restrictions apply to the M2 and M6 shuttles to Cambridge and Chestnut Hill). The All-Ride program is a separate benefit.

The LMA Shuttle All-Ride program allows employees and students of all LMA medical institutions to ride many of the shuttles servicing Longwood but operated by institutions other than their own... for free!

You no longer need to limit yourself to riding your own employer's shuttles and are now able to ride other shuttles that may better fit your commuting needs. The complete list of participating shuttles can be found below.

Who is eligible for this program?

All employees and students of LMA medical institutions are eligible to participate. These institutions include:

- Beth Israel Deaconess Medical Center
- Boston Children's Hospital
- Brigham and Women's Hospital
- Dana-Farber Cancer Institute
- Joslin Diabetes Center
- Harvard University (Medical School, Dental School, and School of Public Health)

Program Guidelines

- Employee ID Badges are required for boarding the shuttles.
- Shuttles will continue to make only regularly scheduled stops and will not make additional stops based on other existing shuttle routes.

[Contact CommuteWorks](#) with additional questions or call (617) 632-2796.
