

Fenway Health CommuteSwap Questionnaire

Thank you for your interest in Fenway Health's CommuteSwap program! CommuteWorks and Fenway Health are collaborating to bring Fenway Health employees a unique CommuteSwap program tailored to specific employee needs.

Please answer the questions below to help us understand how you commute and what you are hoping to gain from enrolling in CommuteSwap.

1. How many days per week do you work at Fenway Health?
2. On average, how many days per week do you drive and park as part of your commute?
3. When you drive to work, where do you park? Specifically, describe the types and locations of parking facilities. (Examples: 1341 Boylston Street, metered spot in the Fenway area, etc.)
4. How much do you pay for parking? Please describe below. Per day, per month, etc.
5. Please tell us why you drive to work as opposed to taking public transit, walking or biking.
6. On the days when you don't drive to work, how do you get to work? Do you use public transit, walk, bike, or something else? Please specify.
7. What are you looking to get out of Fenway Health's CommuteSwap program? (i.e., try to form a new habit, try transit for the first time, explore my transit options, compare commute times, save money, be kind to the environment, etc.)

When finished, please e-mail your responses in a Word document to Monika Sobanski and Emily Breitbart (contact information below.) Please allow up to five business days for a response regarding acceptance into the CommuteSwap program.
